RE: ML 45717-Clay  
DOGM #E/015/070

Dear Mr. Reuhman,

This letter will advise you that a cultural resources clearance has been approved for your proposed exploration and small-mine operations upon trust lands under ML 45717-Clay.

Prior to the commencement of mining you must resolve any remaining issues regarding road access to the property and must obtain a small-mine permit from the Division of Oil, Gas & Mining. Please send me a copy of your DOGM small-mine permit when issued.

Thank you for your cooperation.

Sincerely,

John T. Blake  
Mineral Resources Specialist

CC Paul Baker
